

Junhao Liu

National Astronomical Observatory of Japan
2-21-1 Osawa, Mitaka, Tokyo 181-8588, Japan
✉ Email: liujunhao42@outlook.com, junhao.liu@nao.ac.jp
📁 liujunhao-astro.github.io
Birth Year: 1993

Research Interests

- Magnetic fields and dust polarization in star formation regions
- Initial condition of star formation in massive infrared dark clouds (IRDCs) and low-mass starless cores.
- Magneto-hydrodynamic (MHD) turbulence in self-gravitating media
- Jets and outflows associated with star formation activities.

Employment

2023/09- **Project Researcher (postdoc)**, National Astronomical Observatory of Japan (NAOJ), Mitaka, Tokyo, Japan. Host: Prof. Patricio Sanhueza.

2021/06- **EAO Fellow (postdoc)**, East Asian Observatory (EAO), Hilo, Hawaii, USA.
2023/09

Research Experience

2018/08- **SAO pre-doctoral Fellow**, Center for Astrophysics (CfA) | Harvard & Smithsonian, Cambridge, Massachusetts, USA. Supervisor: Dr. Qizhou Zhang.
2021/05

Education

2015/09- **Ph.D. in Astronomy**, Nanjing University, Nanjing, Jiangsu, P.R. China. Supervisor: Prof. Keping Qiu.
2021/03

2011/09- **B.S. in Astronomy**, Nanjing University, Nanjing, Jiangsu, P.R. China.
2015/06

Mentoring Experience

2023- Co-mentor of a visiting student (Luo, Qiuyi) at NAOJ.
2019-2020 Co-mentor of two visiting students (Mo, Shixian and Sun, Li) at CfA.

Approved PI Proposals

- * **JCMT**: 104.3 hours allocated and 80.8 hours observed.
- 2022 "Deviation from turbulence cascade in NGC 6334". M23AD001.
- 2018-2022 "Dust polarization survey of massive dense cores in Cygnus-X". M18BP047, M19BP037, M20AP048, M22AP019, and M22BP047.
- 2022 "Dust polarization survey of IRDCs". M22AD003.
- 2021 "Are sub-virial clumps in IRDC G28.34 supported by magnetic fields?". M22AP018.
- * **SMA**: 19 tracks allocated and 12 tracks observed; 1 track is about 6-10 hours
- 2019-2023 "Dust polarization survey of massive dense cores in Cygnus-X". 2019B-S028, 2021A-S008, 2022A-S040, and 2023A-S011.
- * **ALMA**: 16 hours allocated and 1.5 hours observed.

2021 "Dust polarization survey of massive dense clumps in IRDCs". Cycle 8: 2021.1.01083.

Participated Large Programs

2016-now "B-Fields in STar-Forming Region Observations (BISTRO)". JCMT. PI: Derek Ward-Thompson.

Honors and Grants

2022 Outstanding Young Scholar for the Molecular Clouds and Star Formation Colloquium
2021-2023 EAO Fellowship
2018-2021 SAO pre-doctoral fellowship

Recent Academic Activities

2023/08 Seminar Talk. NJU-SASS Science Seminar in Nanjing, China
2023/07 Seminar Talk. SHAO Science Seminar in Shanghai, China
2023/07 Seminar Talk. EAO Science Seminar in Hilo, USA
2023/02 Seminar Talk. Young Scholars Forum at Nanjing University (remote), Nanjing, China
2022/11 Seminar Talk. SWIFAR Seminar at Yunnan University (remote), Kunming, China
2022/09 Seminar Talk. KIAA-DoA Seminar at Peking University (remote), Beijing, China
2022/08 Conference Talk. Molecular Clouds and Star Formation Colloquium of China (remote).
2022/02 Seminar Talk. Shanghai Astronomical Observatory in Shanghai (remote), China

Services

- Referee for A&A.
- Reviewer of JCMT and ALMA proposals.

2024 LOC for Bfields-2024 conference in Mitaka, Japan.
2021-2023 EAO fellow's JCMT-related duties (50% of time)
2021-2023 Organizer of EAO science seminars.
2022 Co-organizer of the JCMT 2022 Users Meeting (remote). Chair for one session.

Observation Experience

2021/12 IRAM-30m remote observation. 1 night.
2018/02 Tianma-65m on-site observation. 5 days. Shanghai, China
2017/09 JCMT on-site observation. 7 nights. Mauna Kea, HI, US
2015/06 CSO remote observation. 5 days.

Skills

Software CASA, STARLINK, IDL/MIR, MIRIAD, POLARIS, RADEX, GILDAS
Data reduction&imaging SMA, ALMA, JCMT, IRAM-30m, Tianma-65m, PMO-13.7m

Publications (ADS link)

10 first-author or corresponding-author papers with 164 citations, including an invited review.
36 total papers with 759 citations, including 1 second-author paper.
